Vinyl Planks

If you're going for a tiled look, you get to benefit from our unique tile size. Tiles measuring 600 by 900 millimeters will give your home a timeless look and feel. The high-quality finishing assures years of domestic and commercial comfort – comfort in an extra-large package.

Kitchen Wall Panels

These realistic tile-structure boards stay clean and hygienic year after year.

The BerryAlloc Kitchen Wall collection, made of compact and durable laminated materials, is both heat and water resistant. Even direct splashes of boiling water will not damage it. You can quickly and easily install the panels yourself, without making a mess or losing lots of time. Kitchen Wall panels are 3mm thick, which makes them ideal for quick renovations. A tube of BerryAlloc glue, a little time on your hands and you are all set. The hardest part? Choosing!

In this collection by Yonoh, the link strands are born from the light source surrounding it, creating tubes of different lengths that intersect forming a volume adapted to the desired compositions.

Framed Solutions

Shape Frame is a decorative solution that delimits a chain emptying and that can cover practical needs or aesthetics to beautify in a surprising way.

In terms of design, the limit is in the imagination. The frame can reproduce all kinds of organic or geometric shapes, including elements that are completely suspended between the chains.

Organic, geometrical, fancy shapes...
Imagine it, we will do it for you.
